Security screening complies with the TSA 12-5 Standard Security Program (TFSSP).

▶▶ City-Connect found its home in Columbia.

▶▶ City-Connect was founded by two long-time pilots and aviation entrepreneurs, Jay Taffet and Mark Oelhafen. Their goal was simple: To build a Southeast-based air shuttle that combined the amenities of private air with the pricing of the airlines so everyone could enjoy this world of travel.

Together with a dynamic group of area business and community leaders, they launched an air service committed to restoring the comfort, convenience and peace of mind of commercial air travel, and, more importantly, established a direct and efficient connection between South Carolina Midlands and the business and entertainment districts of Atlanta – Midtown/Buckhead.

We hope you enjoy the service we've built for your city, and will become part of our passenger family for many years to come!
